# EXHIBIT 12

The image consists of a series of black bars on a white background. The bars are of various lengths and are arranged in a non-repeating, abstract pattern. Some bars are horizontal, while others are vertical or angled. The overall effect is reminiscent of a barcode or a digital signal, but with a more organic, less structured appearance.

1           A     So we -- can you restate the question,  
2 please? I want to make sure that I answer correctly.

3           Q     Sure. What I'm just trying to get at is, is  
4 it correct that one of the values that Agri Stats  
5 brought to its clients was to ensure a standardization  
6 of data?

7                    MR. BERNICK: Same objection.

8           A     And you mentioned the SKU-level data. So  
9 all of that data would be coded at the SKU level and  
10 great care was made to ensure that all of those  
11 product codes were coded correctly, to ensure that  
12 apples-to-apples comparison that you mentioned.

13           Q     In the Data Miner, could pork clients search  
14 by SKU?

15           A     I don't recall specifically the inner  
16 workings of the Data Miner tool. So I don't know the  
17 capabilities that it had.

18           Q     Who would be the person at Agri Stats most  
19 knowledgeable about the Data Miner tool?

20           A     I don't know at this stage.

21           Q     During your tenure there in charge of the  
22 pork program, who would have been the person most  
23 knowledgeable about the Data Miner tool?

24           A     During my tenure, that person would have  
25 been Greg Dess.
